

# CHOOSING A BROKER

BY DEREK VANDELINDER

*Derek Van Delinder.*

# WELCOME TO THE TRADER SOCIETY GETTING SET UP WITH A BROKER COURSE

IN THIS VIDEO YOU ARE GOING TO LEARN  
EVERYTHING YOU NEED TO KNOW ABOUT  
HOW TO GET SETUP WITH A BROKER.

# WHAT IS A FOREX BROKER?

pause to take notes

- A forex broker is a financial services company that provides traders access to a platform for buying and selling foreign currencies. Transactions in the forex market are always between a pair of two different currencies. A forex broker may also known be as a retail forex broker or a currency trading broker
- The Broker I use is [www.HeyForex.com](http://www.HeyForex.com)

# HOW TO CHOOSE A FOREX BROKER.

pause to take notes

- There are two different types of brokers you can use. A regulated broker which has more requirements and offer less services as while as higher prices and spread.
- OR you can use an unregulated broker like 95% of beginner traders with under \$100k capital to trade with.
- The advantages to unregulated brokers is the cheaper spread and commission prices as well as quicker withdrawals.
- There is alot of Negative talk about forex brokers that you will find on the internet, but I personally have not one time in my 6 years of trading have trouble withdrawing from a broker.

LET ME SHOW  
YOU HOW TO  
GET SET UP  
WITH A  
BROKER.

pause to take notes

- With any broker you go to you may need to send them documents such as a copy of your photo ID, and a proof of address so that you can deposit and withdraw funds.
- If you are looking to only trade Demo you will not need to set that up yet.
- Let's get started. Head to [www.heyforex.com](http://www.heyforex.com) or your broker of choice.
